Introducing Phonak Virto M-312

Staying connected is part of our everyday lives. Phonak Virto M-312 has been designed to keep you connected to your phone calls, messages, emails, TV, apps and electronics while delivering clear, rich sound.

What you can expect:
• Connects to smartphones – iOS and Android
• Connects to a variety of everyday electronics
• Hearing aids used like wireless stereo headphones
• Extra-long streaming time with TV Connector thanks to AirStream technology

Keeps you connected

To your Smartphone...
Phonak Virto M-312 is the world’s first custom hearing aid with hands-free calls that directly streams audio content from iOS, Android or other Bluetooth® enabled devices to your hearing aids.

Calls can be answered or rejected with a simple push of a hearing aid button, even if your phone is across the room.

To your Lifestyle...
With RogeDirect™ Phonak Virto M-312 is the first ever custom hearing aid that allows Roger technology to stream directly without an external receiver.

To your TV and multimedia...
Virto M-312 also features proprietary AirStream™ technology to stream from any TV and stereo system. Enjoy your favourite TV programs and movies with a simple plug and play solution called TV Connector.

It’s just like using wireless headphones, but it automatically adjusts for optimized sound quality. This new technology enables Virto M-312 to distinguish between streamed speech and music signals.
## Premium M90

<table>
<thead>
<tr>
<th>FEATURES</th>
<th>BENEFITS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Calm Situation</td>
<td>Provides listening comfort and clarity in quiet, one on one conversation.</td>
</tr>
<tr>
<td>Speech in Noise</td>
<td>Adapts and reduces noise from behind in real time and applies and optimizes the signal-to-noise ratio (SNR) in noisy environments.</td>
</tr>
<tr>
<td>Speech in Loud Noise</td>
<td>Automatically helps you focus on a single speaker directly in front of you in an extremely noisy crowd, for eg. a party or restaurant.</td>
</tr>
<tr>
<td>Speech in Car</td>
<td>Reduces car and road noise to make listening in the car more enjoyable.</td>
</tr>
<tr>
<td>Comfort in Noise</td>
<td>For listening comfort in loud situations when no speech is present.</td>
</tr>
<tr>
<td>Comfort in Echo</td>
<td>Reduces disturbing echo while letting you hear and understand speech naturally.</td>
</tr>
<tr>
<td>Music</td>
<td>Offers a full and rich listening experience so you can enjoy your favourite music again.</td>
</tr>
<tr>
<td>Direct Connectivity</td>
<td>Automatic streaming to both ears from any bluetooth enabled device (phone calls, music, videos, e-books, podcasts and much more). Distinguishes between streamed speech and music signals, and automatically adjusts for an optimized sound quality.</td>
</tr>
<tr>
<td>Speech in 360°</td>
<td>Once activated, this automatically tracks and focuses on the dominant speaker, when you cannot face them, for e.g. driving with passengers behind or beside you.</td>
</tr>
<tr>
<td>EchoBlock</td>
<td>Identifies signals blurred by echo/reverberations and removes them, providing you with clearer hearing.</td>
</tr>
<tr>
<td>SoundRelax</td>
<td>Cushions sudden loud or unpleasant impulse sounds such as clanging dishes.</td>
</tr>
<tr>
<td>WindBlock</td>
<td>Suppresses wind noise so you can enjoy spending time outdoors.</td>
</tr>
<tr>
<td>WhistleBlock</td>
<td>Elimination of annoying and embarrassing whistling from the hearing aids before it becomes audible to you or people around you.</td>
</tr>
<tr>
<td>NoiseBlock</td>
<td>Automatically reduces annoying background noise like engines or fans without reducing the voices you want to hear.</td>
</tr>
<tr>
<td>DuoPhone</td>
<td>The phone signal is automatically heard in both ears, therefore also reducing background noise.</td>
</tr>
<tr>
<td>QuickSync</td>
<td>Control both your instruments (program and/or volume changes) with one simple touch.</td>
</tr>
<tr>
<td>UltraZoom Premium</td>
<td>In noisy situations this feature zooms in on voices that are facing you. Noise from the side and back is reduced, for e.g. home activities or in meetings.</td>
</tr>
<tr>
<td>SoundRecover2</td>
<td>Makes high pitched sounds easier to hear, for e.g. women’s voices.</td>
</tr>
<tr>
<td>Tinnitus Balance</td>
<td>Every Marvel model includes a &quot;built-in&quot; feature designed to reduce the annoyance of your tinnitus, especially in quiet environments.</td>
</tr>
